**From the Daily Press (11/13/2010):**

**Science and Technology**

Hampton-based Analytical Mechanics Associates — which offers technology, engineering and consulting services — has hired **Jeff Jordan** as Chief Operating Officer. Jordan will provide executive level strategic and financial management to AMA and oversee programs under AMA's government and commercial clients in engineering, visualization and multimedia, information technology and business analytics.

A resident of Williamsburg, Jordan has previously worked at NASA Langley Research Center and most recently was the director of space services for Alliant TechSystems.

AMA promoted **Sanjay Gowda** to Chief Information Officer. Gowda will lead business units focused on the development and commercialization of information technology products including modeling and simulation, multimedia ([www.amastudios.com](http://www.amastudios.com)), virtual and augmented reality, and advanced visualization for aerospace, defense, automotive, financial, medical and packaging industries.
